

Hello Mr. White!

Greetings again from those of us here with the *Dornier Do-24ATT World Tour Project*. Guess what I realized as we were taking off on our final day in Truckee? I'd forgotten to drop off those dream forms we had spoken about. Well, while I momentarily forgot, I did not forget entirely. I have enclosed some here, and if it is not enough, feel free to make as many copies as you may need.

The kids can feel free to be as creative as they would like. We encourage them to write us a little story about their dreams for themselves, their friends and family, the world. Anything they want to write is great, and we welcome it. Tell them to be expressive. Also, they can draw pictures, or include photos, anything they wish. Photos are helpful especially for us to publish in the book. Just please have them make sure that their name and age are printed somewhere on *every piece they submit*. That's all I will need. And they should feel free to use their own blank paper so they are not limited with space.

I have also enclosed a prepaid envelope for you to send them back to me. Thank You All so much for helping me involve the world in this project. Feel free to contact me at any time if you have questions, or for any reason.

Best Regards,
